Kalbe Achieved Fortune Indonesia's Most Admired Companies 2014 Award

posted on April 01, 2014

KALBE has just received an award as one of Indonesia's most admired companies in the Fortune Indonesia's Most Admired Companies 2014 event. The aspects noted include the value of the product and services offered by the company, as well as the check and control quality that is implemented by the company.

The award is granted based on the process conducted by the Fortune Indonesia's Most Admired Companies (FIMAC) 2014 team alongside a panel of credible judges that consisted of business leaders and CEO of renown companies, investment analyses, and Expert Panel from the Hay Group.

All of these cannot take away the contribution and consistency of the Ladies and Gentlemen employees of KALBE through time within our respective divisions. May this award be able to fuel our zeal to do even better in the future.
